Whether or not you're a *gamer*, everyone's familiar with the cultural impact of the World of Warcraft®. For over a decade, Blizzard has produced high-quality games; World of Warcraft®, Warcraft® III: Reign of Chaos™, Diablo® II, and StarCraft® making them one of the most successful video game companies in history. On Saturday, March 8 at Gallery Nucleus, the creative talent behind Blizzard Entertainment® will hold an exhibition showcasing rarely seen artwork by their talented team of concept artists straight from Blizzard studios. If you are a fan of the games or fantasy art in general, this is your opportunity to obtain a rare piece of the popular games. All artwork on display will also be for sale with all proceeds going to benefit Child's Play. Created by Penny Arcade, Child's Play is a Seattle-based, game industry charity dedicated to improving the lives of children with toys and games in over 40 hospitals worldwide. Artists and developers will be in attendance to discuss the work and greet fans. Plus, you don't want to miss the live demos of the new World of Warcraft® trading card game. This event will also be the first to be held at Nucleus' new gallery space at 210 East Main St. Alhambra, CA. The new gallery space is just one block east of our previous location.

Our manifesto is to inspire new ideas, gain exposure, create relationships, and obtain interesting products. Our purpose is to support and promote upcoming artists that have a clear dedication and quality to their craft. Through our gallery space, retail space, and products, we act as a platform to help people excel in their goals as an artist and expose them to the general public and art collectors alike. Nucleus carries a variety of art books, zines, underground comics, collectables, and a healthy selection of artist-designed products. Located in Alhambra California, we cater to a much wider and general demographic of people, not limiting ourselves to just collectors or art districts, but truly appealing to the general public.
